#### **Statement**

"Peter was my work partner from way back. He had this dinner to celebrate his new book. Last night after dinner I went for a walk in the hotel gardens, and then went for a chat with Peter. He seemed normal when I went in.  
Afterwards I went to bed because I was supposed to have a meeting this morning."

#### **Statement**

"I went to the theatre with Olivia after the dinner. We came back about 11 o'clock, and saw there was light under Peter's door. We thought it was strange, and knocked. I got no answer, so we both went in. We found Peter on the floor - Olivia checked if he was OK, but he didn't respond. We both left the room and called the police. I didn't touch anything."

**Job:** School Teacher

#### **Statement**

"Alex and I went out after the meal - I enjoy theatre, and there was a show I really wanted to see. We came back quite late, and Alex saw that there was light under Peter's door. He opened the door, and we saw Peter on the floor. I rushed over to check if he was unwell, and I rolled him over, pulling his jacket. Blood was everywhere - we both went to phone the police."

#### **Statement**

"I was invited to this dinner by Olivia. I had met Peter only briefly before tonight as I was interested in doing some business with him. He seemed a nice person, but I understand that he had a dark past. He seemed very protective of his book. After dinner I had a headache from the conversation, so I went to bed to read a book. I was woken up by the policeman knocking on my door."

### **Pathologist's Report on the Victim**

#### **Picture**

**Name of Victim:** Peter  
**Age:** 52  
**Job:** Businessman

#### **Pathologist's Report**

From my analysis of Peter's body, he was stabbed by a knife. This may have looked like the kitchen knife that was found at the scene of the crime.

I believe that there was a struggle, as I found skin cells from under Peter's nails which came from another person.
